Auto Accident Financial Responsibility:

Auto accident care is billed primarily through your auto insurance carrier under the Personal Injury Protection (PIP) coverage. Your carrier will then recover that money from the other insurance company if another party is at-fault. When your combined bills (from all providers seen) exceed the amount of PIP coverage then all parties have to wait for a settlement to be reached either directly through the third party adjuster or by way of a Personal Injury Attorney. During this waiting period we at SHAW Chiropractic will carry the balance with a signed Lien Waiver. Sometimes the settlement takes a while to recover and our office spends time going back and forth with the Attorney or the Insurance Adjuster to monitor the progress of the case. As a result of this extra time spent on the case and holding the bill until settlement, our office reserves the right to add a 2% interest charge per month until a settlement is reached. To avoid any interest being added to the final bill you can elect to make a minimum of a $25 payment per month which then will be recovered with the settlement.
